Are you going to be in the office tomorrow? I can't get connected remotely either -- so something is going on over there if you can't get to your VM either. If you are going to be onsite, do you think we can get a remote session on your PC? We may be able to RDP into that VM and grab your .pst file.

I meet with an old customer of mine that is now CIO at a new large location in Winston. He told me they are upgrading their servers and storage. I think they may have already purchased the stuff but may be worth checking on soon and seeing if we can get in on it. I will be quoting some audio video work, Camera System, Paging and misc work early next week. I know you guys are busy but do you have time to meet Friday morning to discuss some things?

Thanks,

Eric

Eric - I have your contacts uploaded, but I can't get your mail to move. Can you grab the .pst file off the C: drive on your VM? All your mail has been converted to a .pst file. Also, don't forget to grab your stuff off the Q: drive.

Subject: Products that we can offer soon

Hi Guys,

Here are a few products that we will be offering very soon. Also below are links on licensing.

Access Control <http://www.alphone.com/home/>

Access Control <http://s2sys.com/>

Video Management Software <https://www.exacq.com/>

Video Management Software <http://www.milestonesys.com/>

IP Cameras <http://www.axls.com/>

Paging and Mass notifications <http://www.valcom.com/>

Paging and Mass notification <http://www.bogen.com/>

DAS Systems <http://www.accu-tech.com/das/>

Visitor Management Software <https://www.hldglobal.com/visitor-management/turnkey>

Security License Info below . I also have someone to assist us in this process. <http://www.ncdoj.com/About-DOJ/Law-Enforcement-Training-and-Standards/Alarm-System-Licensing.aspx>

Low Voltage training class at ADI. We will need to check with ADI Greensboro and get a class scheduled. http://w6:adl-dist.com/_shared/flyers/documents/ntc-training_000.pdf

LV licensing

http://www.ncga.state.nc.us/EnactedLegislation/Statutes/HTML/ByChapter/Chapter_74D.html

<http://www.ncbeec.org/>

Info on testing center http://www.contractorexam.com/NC_E_LV.htm

I can handle all the licensing but as I said it will take a little time. I have access to a LV and Security license for the install portion but anyone who sales, discusses security design is violating the law per the NC licensing board. We need to be careful not to solicit that we provide Security Services until we are fully licensed.

More details to come

If you have any questions let me know.

Thanks,

Eric
